Look for overhead obstructions and electrical lines. Avoid using aerial platforms outside in bad weather and high winds. Don't use an aerial platform if it has to be stabilized against another building or object. Never use your aerial platform as a crane. Before working on an aerial platform, put on the appropriate fall protection gear. Consider a fall limiter so that you do not fall too far off of the platform.

### **Aerial Platforms | OSHA Safety Manuals**

Allow for platform movement, electrical line sway or sag and beware of strong or gusty winds. Keep away from the machine if it contacts energized power lines. Personnel on the ground or in the platform must not touch or operate the machine until energized power lines are shut off. Do not operate the machine during lightning or storms.
