2. This experience of God’s love has factual, objective content. Another way to say it is that this Spirit-worked experience — and it is an experience! — is given to us by the Spirit through historical facts. There is a knowledge component to this experience and there are real facts behind the knowledge.

How to Experience the Outpouring of God’s Love | Desiring God
In focusing solely on the experience and the story we wanted to tell, we freed ourselves from the constraints of objects that either didn’t exist or didn’t tell the right story. Hallelujah! It was like a weight had been lifted. Suddenly anything was possible.

From Object to Experience : The New Culture of ...
Experience is the process through which conscious organisms perceive the world around them. Experiences can be accompanied by active awareness on the part of the person having the experience, although they need not be. Experience is the primary subject of various subfields of philosophy, including the philosophy of perception, the philosophy of mind, and phenomenology.

Object-Oriented Approach. For the new signal, Google is using an object-oriented approach, which I think is brilliant. For example, each factor that is part of the new signal can be viewed as its own object. Each object will output a score, which will be combined to form the final Page Experience score.

Google’s New Page Experience Signal: An Object-Oriented ...
Every object is an entity with meaningful elements that are manageable from the administrator’s control panel. To put the OOUX method to work on a project, we must first identify all objects in the system and figure out their properties. OOUX involves the use of a special map that takes several steps to develop. 1. Identifying the objects
