Practical Pin Bar Trading Strategies

A pin bar pattern consists of one price bar, typically a candlestick price bar, which represents a sharp reversal and rejection of price. The pin bar reversal as it is sometimes called, is defined by a long tail, the tail is also referred to as a "shadow" or "wick". The area between the open and close of the pin bar is called its "real body", and pin bars generally have small real bodies in ...

action trading signals that can be traded across many different markets and time frames.. It is very simple to identify and most new traders can very quickly learn how to spot this two candle formation.

Where Traders Go Wrong With the Pin Bar Reversal

To effectively trade the pin bar formation, you need to first make sure it is well-defined, (see above characteristics). Do not trade just any bar with a large wick. You want the nose of the bar to really stick out and preferably, you want to be trading in the direction of the overall trend. For a Bearish pin bar: sell on a break of the pin bar ...

7 Trading Patterns That Can Make You Rich!

See the power of the 50% pin bar strategy? As an R-multiple, the break of pin bar nose entry becomes a 1.1R, while using the 50% entry becomes a 3.25R. If risking \$100, that's about a \$110 profit using the break of pin bar nose entry strategy and approximately a \$325 profit risking the same \$100.
