If you're using the term "Boomer Moment" a bit more frequently these days, you're not alone. Here are the latest How To's for Brain Fitness.

Reduce Senior Moments by Increasing Brain Fitness

Most experts believe memory exercises for seniors should typically involve real-world activities, but there are also some clinically proven brain training programs shown to effectively improve brain function and memory. It's believed that the key to a sharper mind primarily boils down to four things: keeping your mind active by learning something new, switching up your routine, taking care of your body through a healthy diet and exercise, and if you play brain games, selecting those that ...

The Senior Moments Memory Workout:... book by Tom Friedman

THURSDAY, Sept. 15Those "senior moments" that plague so many aging Baby Boomers may or may not be a sign of more serious problems down the line. New research finds that losing your train of thought or forgetting where you placed your keys may be a fairly benign — albeit annoying — sign of age.

Certain 'Senior Moments' May Signal Mental Decline - The ...

The 2014 World Alzheimer's Report suggests "If we enter into mature age with better developed, healthier brains we are likely to live longer, happier and more independent lives, with a much-reduced chance of developing dementia." And while "senior moments" – like forgetting why we walked into that room – and small lapses in memory are normal, there are things we can do in our ...
