The Impacts Of Neighborhoods On

The neighborhood effect on education can impact the quality of teachers, school programs, clubs, and campus environment students might experience. Multiple studies confirm that a "neighborhood's poverty, a poor educational climate, the proportion of ethnic/migrant groups, and social disorganization" [26] together all contribute to the lack of academic success among students in that area.

Neighbourhood effect - Wikipedia

One possibility is that neighborhoods have causal effects on economic mobility: that is, moving a given child to a different neighborhood would change his or her life outcomes. Another possibility is that the observed geographic variation is due to systematic differences in the types of people living in each area, such as differences in demographics or wealth.
